provider search tool at fallonhealth.org to determine which providers are included in Community Care.

Choosing a primary care provider (PCP)

Your relationship with your PCP is very important because he or she will work with Fallon to provide or arrange most of your care. As a member of Community Care Connector High Gold, you must select a PCP. To do this, just complete the section on your Fallon Health membership enrollment form. If you need help choosing a PCP, please visit the "Find a Doctor" tool on fallonhealth.org or call Customer Service.

Obtaining specialty care

When you want to visit a specialist, talk with your PCP first. He or she will help arrange specialty care for you. The following services do not require a referral when you see a provider in the Community Care network: routine obstetrics/gynecology care, screening eve exams and behavioral health services. For more information on referral procedures for specialty services, consult your Community Care Member Handbook/Evidence of Coverage.

Emergency medical care

Emergency services do not require referral or authorization. When you have an emergency medical condition, you should go to the nearest emergency department or call your local emergency communications system (police, fire department or 911). For more information on emergency benefits and plan procedures for emergency services, consult your Community Care Member Handbook/Evidence of Coverage.
